MINERALS FROM THE DEAD SEA

To Whom It May Concern,

It is with great pleasure that I recommend Betachon Freight Auditing as your logistic optimizer. Not only have they greatly reduced our shipping costs with FedEx, but have also saved us time from doing it ourselves. We have been very pleased with Betachon since we started with them and are very impressed with their work. We were shocked to find that Betachon receives credits on shipments that were late due to customs and weather delays since normally they are not due for refunds. We never pay out of pocket and if it weren't for Betachon, the money recovered would have been lost. In today's trying economy it is imperative that a company attempts to minimize its costs and Betachon clearly makes that a reality.
